

# DVK Standard Vanities

When purchasing DVK Vanity, consider the look of your other bathroom fixtures. Remember that you will get better understanding and better deals when you visit DVK Showroom, and that the real key to create a bathroom you love is to use a combination of materials and accessories to create a style all your own.

A vanity provides a focal point for your bathroom, offering function and a way to express your decorating style. DVK Bathroom Vanities come in a variety of configurations, including single sink, double sink, different number of doors or drawers. When selecting a vanity, keep the following questions in mind:

- What material is the best fit for your bathroom?
- Are you looking for an assembled vanity, or do you want to match the base and top yourself?
- How much storage do you need?
- How much space is available?

# Vanities Longer than 60 inches

DVK provides Ready to Assemble (RTA) Kitchen Cabinets and Bathroom Vanities. RTA cabinets and vanities are compact to ship and store. These cabinets are for the do-it-yourself type of people who want to save big money. With DVK's RTA vanities you can save a lot of money.

You also can assemble any length of vanity you want up to a Football Field Length; if you need a vanity longer than Football Field Length, please contact DVK's Customer Support for help.

The vanities are prefabricated in multipliers of 3 inches; DVK still has a solution if you need a vanity not a multiplier of 3 inches, by using filler that DVK will provide.

Below are some dimensions and prices that will help you estimating the cost of your vanity:

Vanity	Price
VDB12	\$99.00
VDB15	\$109.00
VDB18	\$119.00

Please note that these are for drawer cabinets; as for doors (cupboards) cabinets, you could use the sizes and prices indicated in the Standard Vanities Section.
